Complete program and other courses at [www.signo.no/kurs](http://www.signo.no/kurs)

## Gathering for families

In connection with the conference being held we have a gathering for families who have a family member with CHARGE syndrome. More information on our website.

## About Signo school and Resource Centre

We are a nationwide resource and education centre for hearing impaired with additional needs. We are an independent diaconal foundation, and also one of seven different units in the Norwegian Foundation Signo.

Signo School and Resource Centre offer a broad spectrum of services:

- Education at all levels,
- Residential school,
- Research, assessments and guidance to parents and professionals.

Throughout the whole organisation you will find competence and focus on communication. We use sign language and various forms of alternative and augmentative communication. The core value is to understand and to be understood.
